Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Known only from the type collection (in 1895). Extirpated by urbanization. RIV Co. record from the Santa Rosa Mtns. probably erroneous, based on a misidentification of *Sphaeralcea*. Field surveys unsuccessful. See *Leaflets of Western Botany* 1:216 (1936) or original description, and 6(6):136 (1951) for revised nomenclature.
