## Notes

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## Notes

Historical occurrences extirpated by agriculture. Possibly threatened by solar energy development. Closely related to *A. depressa* and *A. parishii*; a synonym of the latter in *A California Flora* (1959) by P. Munz. See *North American Flora* 21:51 (1916) for original description.
