© 2011 Neal Kramer

### Classification

|                      |   |
|----------------------|---|
| Scientific Name      | <i>Munzothamnus blairii</i> (Munz & I. M. Johnst.)<br>P. H. Raven |
| Common Name          | Blair's munzothamnus  |
| Family               | Asteraceae  |
| Element Code         | PDAST8U0K0  |
| USDA Plants Symbol   |   |
| Synonyms/Other Names | <u><i>Stephanomeria blairii</i> Munz &amp; I. M. Johnst.</u>      |

### Conservation Status

|                            |            |
|----------------------------|------------|
| California Rare Plant Rank | 1B.2       |
| Global Rank                | G3         |
| State Rank                 | S3         |
| CESA                       | None       |
| FESA                       | None       |
| Other Status               |            |
| CRPR Changes               |            |
| Date Added                 | 1980-01-01 |
| Last Update                | 2022-03-01 |

### Ecology and Life History

|                      |                                    |
|----------------------|------------------------------------|
| Lifeform             | perennial shrub                    |
| Blooming Period      | Jul-Sep                            |
| Elevation m (ft)     | 25-455 (80-1495)                   |
| General Habitats     | Coastal bluff scrub, Coastal scrub |
| Microhabitat Details |                                    |
| Microhabitat         | Rocky                              |

## Threat List Data from the CNDDDB

|                         |           |             |
|-------------------------|-----------|-------------|
| Threat List Total:      |           | 0           |
|                         | Total EOs | Percent EOs |
| EOs with Threats Listed | 0         | %           |
| Threat List:            |           |             |

## Element Occurrence Data from the CNDDDB

|                            |    |
|----------------------------|----|
| Total Element Occurrences: | 26 |
| Element Occurrence Ranks:  |    |
| Excellent (A)              | 0  |
| Good (B)                   | 0  |
| Fair (C)                   | 0  |
| Poor (D)                   | 0  |
| None (X)                   | 0  |
| Unknown (U)                | 26 |
| Occurrence Status          |    |
| Historical, > 20 years     | 9  |
| Recent, < 20 years         | 17 |
| Presence                   |    |
| Presumed Extant            | 26 |
| Possibly Extirpated        | 0  |
| Presumed Extirpated        | 0  |

## Location

|   |     |
|---|-----|
| California Endemic  | Yes |
| Counties  |     |
| Los Angeles (LAX)   |     |
| States  |     |
| California (CA)   |     |
| Quads   |     |
| San Clemente Island Central (3211874), San Clemente Island North (3211885), San Clemente Island South (3211873) |     |

### Notes

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## Notes

Feral herbivores removed from SCM Isl., and vegetation recovering. See *Bulletin of the Torrey Botanical Club* 51:301 (1924) for original description.
