Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Historical occurrences probably extirpated by agriculture and non-native plants. Seriously threatened by urbanization; also threatened by disking, residential development, and non-native plants. See *B. plumosa* ssp. *plumosa* in *TJM* (1993). See *Proceedings of the California Academy of Sciences* 1 5:49 (1873) for original description, *Systematic Botany* 26(1):184-194 (2001) for elevation to specific rank, and *Madroño* 48(4):272-285 (2001) for demography and population biology.
