Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Previously CBR as being a synonym of *C. lemmonii*; a common taxon. Similar to *C. lemmonii*; differentiated by floral coloration and in being endemic to volcanic substrates on the flanks of Mt. Lassen versus growing primarily in granitic substrates in the Sierra Nevada. See *Leaflets of Western Botany* 2:241-245 (1940) for original description, and *Phytoneuron* 2015-33:1-13 (2015) for taxonomic treatment.
