Classification

Scientific Name	<i>Crataegus castlegarensis</i> Phipps & R. O'Keenan
Common Name	Castlegar hawthorne
Family	Rosaceae
Element Code	PDROS0H9E0
USDA Plants Symbol	<u>CRCA30</u>
Synonyms/Other Names	

Conservation Status

California Rare Plant Rank	3
Global Rank	G5
State Rank	S3?
CESA	None
FESA	None
Other Status	
CRPR Changes	added to 3 on 2006-05-05
Date Added	2006-06-28
Last Update	2021-05-26

Ecology and Life History

Lifeform	perennial deciduous shrub
Blooming Period	May-Jun(Jul)
Elevation m (ft)	0-1455 (0-4775)
General Habitats	Riparian woodland (moist rocky loam)
Microhabitat Details	
Microhabitat	

Threat List Data from the CNDDDB

Threat List Total:		0
	Total EOs	Percent EOs
EOs with Threats Listed	0	0%
Threat List:		

Element Occurrence Data from the CNDDDB

Total Element Occurrences:	0
Element Occurrence Ranks:	
Excellent (A)	0
Good (B)	0
Fair (C)	0
Poor (D)	0
None (X)	0
Unknown (U)	0
Occurrence Status	
Historical, > 20 years	0
Recent, < 20 years	0
Presence	
Presumed Extant	0
Possibly Extirpated	0
Presumed Extirpated	0

Location

California Endemic	No
--------------------	----

Counties

Modoc (MOD), Plumas (PLU), Shasta (SHA)

States

California (CA), Idaho (ID), Montana (MT), Oregon (OR), Utah (UT), Washington (WA), Wyoming (WY)
--

Quads

Adin (4112028), Burney (4012186), Burney Falls (4112116), Burney Mtn. East (4012175), Burney Mtn. West (4012176), Cassel (4012185), Crank Mountain (4112142), Crescent Mills (4012018), Dana (4112115), Devils Rock (4012271), Donica Mtn. (4112132), Egg Lake (4112133), Fall River Mills (4112114), Oak Run (4012261)

Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

How rare is this species in CA? Need information on current status, rarity and threats. Possibly threatened by logging, grazing, and recreational activities. Not in *TJM* (1993). See *Sida* 20:121 (2002) for original description and *Madrono* 51:395 (2004) for information on first report in California. Apparently widespread outside of CA where it is known from WA, OR, MT, ID, UT, WY, British Columbia and Alberta. Can be confused with *C. douglasii* and *C. suksdorfii*.
