Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Rediscovered in 1999. Most historical habitat is now heavily urbanized. Seriously threatened by development and non-native plants. See *Botany of California* 2:481 (1880) for original description, *Phytologia* 66(2):147-149 (1989) for taxonomic treatment, and *Madrono* 48(2):78 (2001) for rediscovery.
