#### **Notes**

Definitions of codes preceding a county and/or quad:

- \* Presumed extirpated
- (\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

#### **Notes**

Discovered in CA by Marla Knight in 2007. Similar to *Torreyochloa pallida* var. *pauciflora*; differs in having leaf sheaths closed at least part of the way, vs. leaf sheaths open (with overlapping margins) to the base in *T. pallida*. See Species Plantarum 1: 64 (1753) for original description, and Essai d'une Nouvelle Agrostographie 97 (1812) for revised nomenclature.

# **Threats**

Possibly threatened by grazing, trampling, vehicles, and recreational activities.

# **Taxononmy**

Possibly threatened by grazing, trampling, vehicles, and recreational activities.
