

## Report for *Poliomintha incana*

### TAXON DETAILS

#### Classification

|                      |  |
|----------------------|--|
| Scientific Name      | <i>Poliomintha incana</i> (Torr.) Gray |
| Common Name          | frosted mint                           |
| Family               | Lamiaceae                              |
| Element Code         | PDLAM1L020                             |
| USDA Plants Symbol   | <u>POIN3</u>                           |
| Synonyms/Other Names |  |

#### Conservation Status

|                            |                                     |
|----------------------------|-------------------------------------|
| California Rare Plant Rank | 2A                                  |
| Global Rank                | G5                                  |
| State Rank                 | SH                                  |
| CESA                       | None                                |
| FESA                       | None                                |
| Other Status               |                                     |
| CRPR Changes               | changed from 1A to 2A on 2013-06-12 |
| Date Added                 | 1994-01-01                          |
| Last Update                | 2021-06-03                          |

#### Ecology and Life History

|                      |   |
|----------------------|---|
| Lifeform             | perennial shrub                         |
| Blooming Period      | Jun-Jul                                 |
| Elevation m (ft)     | 1600-1700 (5250-5580)                   |
| General Habitats     | Lower montane coniferous forest (mesic) |
| Microhabitat Details |   |
| Microhabitat         |   |

## Threat List Data from the CNDDDB

|                         |           |             |
|-------------------------|-----------|-------------|
| Threat List Total:      |           | 0           |
|                         | Total EOs | Percent EOs |
| EOs with Threats Listed | 0         | %           |
| Threat List:            |           |             |

## Element Occurrence Data from the CNDDDB

|                            |   |
|----------------------------|---|
| Total Element Occurrences: | 1 |
| Element Occurrence Ranks:  |   |
| Excellent (A)              | 0 |
| Good (B)                   | 0 |
| Fair (C)                   | 0 |
| Poor (D)                   | 0 |
| None (X)                   | 0 |
| Unknown (U)                | 1 |
| Occurrence Status          |   |
| Historical, > 20 years     | 1 |
| Recent, < 20 years         | 0 |
| Presence                   |   |
| Presumed Extant            | 1 |
| Possibly Extirpated        | 0 |
| Presumed Extirpated        | 0 |

## Location

|  |    |
|--|----|
| California Endemic   | No |
| Counties   |    |
| San Bernardino (SBD)*  |    |
| States   |    |
| Arizona (AZ), California (CA), Colorado (CO), New Mexico (NM), Texas (TX), Utah (UT) |    |
| Quads  |    |
| Big Bear City (3411637)*   |    |

### Notes

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## Notes

Known in CA from only a single historical collection (in 1938) at Cushenbury Springs. Possibly extirpated by mining

activities. See *Botany of the U.S. and Mexican Boundary Survey*, 2(1):130 (1858) by W. Emory for original description, and *Proceedings of the American Academy of Arts and Sciences* 7:247-296 (1870) for taxonomic treatment.
