* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Extremely vulnerable to trampling; also threatened by grazing, altered hydrology, and development. Potentially threatened by road widening, and possibly threatened by non-native plants. State and federally listed as *Parvisedum leiocarpum*; see this name in *The Jepson Manual* (1993). See *Madroño* 5(6):192 (1940) for original description, and *Haseltonia* 5:53-60 (1997) for taxonomic information.
