#### Notes

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

### Notes

Last seen in 1980 at Whittier Narrows Nature Center (LAX County). Recent surveys unsuccessful. Known from fewer than five historical occurrences. Likely extirpated due to a combination of dry years, altered stream flows, human-caused fires, habitat loss, and invasive species. See *Rhodora* 87:259-260 (1985) for taxonomic treatment.
