Classification

## **Scientific Name**

| Common Name          |
|----------------------|
| Family               |
| Element Code         |
| USDA Plants Symbol   |
| Synonyms/Other Names |

Calystegia atriplicifolia Hallier f. ssp. buttensis Brummitt Butte County morning-glory Convolvulaceae PDCON04012 CAATB

## **Conservation Status**

| California Rare Plant Rank | 4.2                                    |
|----------------------------|--|
| Global Rank                | G5T3                                   |
| State Rank                 | S3                                     |
| CESA                       | None                                   |
| FESA                       | None                                   |
| Other Status               |  |
| CRPR Changes               | changed from 1B.2 to 4.2 on 2009-04-30 |
| Date Added                 | 1984-01-01                             |
| Last Update                | 2023-06-06                             |

## **Ecology and Life History**

| Lifeform             | perennial rhizomatous herb  |
|----------------------|---|
| Blooming Period      | May-Jul   |
| Elevation m (ft)     | 565-1524 (1855-5000)  |
| General Habitats     | Chaparral, Lower montane coniferous forest, Valley and foothill grassland |
| Microhabitat Details |   |
| Microhabitat         | Roadsides (sometimes), Rocky  |

# Threat List Data from the CNDDB

| Threat List Total:             |           | 10          |
|--------------------------------|-----------|-------------|
|                                | Total EOs | Percent EOs |
| EOs with Threats Listed        | 75        | 62%         |
| Threat List:                   |           |             |
| Road/trail construction/maint. | 48        | 39%         |
| Logging                        | 45        | 37%         |
| Biocides                       | 16        | 13%         |
| Other                          | 9         | 7%          |
| ORV activity                   | 2         | 1%          |
| Development                    | 1         | 0%          |
| Erosion/runoff                 | 1         | 0%          |
| Foot traffic/trampling         | 1         | 0%          |
| Grazing                        | 1         | 0%          |
| Improper burning regime        | 1         | 0%          |

## **Element Occurrence Data from the CNDDB**

| Total Element Occurrences: | 121 |  |  |
|----------------------------|-----|--|--|
| Element Occurrence Ranks:  |     |  |  |
| Excellent (A)              | 3   |  |  |
| Good (B)                   | 34  |  |  |
| Fair (C)                   | 16  |  |  |
| Poor (D)                   | 4   |  |  |
| None (X)                   | 0   |  |  |
| Unknown (U)                | 64  |  |  |
| Occurrence Status          |     |  |  |
| Historical, > 20 years     | 58  |  |  |
| Recent, < 20 years         | 63  |  |  |
| Presence                   |     |  |  |
| Presumed Extant            | 121 |  |  |
| Possibly Extirpated        | 0   |  |  |
| Presumed Extirpated        | 0   |  |  |

## Location

| California Endemic | Yes |
|--------------------|-----|

## Counties

Butte (BUT), Del Norte (DNT), Mendocino (MEN)?, Shasta (SHA), Tehama (TEH)

## States

California (CA)

## Quads

Barkley Mtn. (4012126), Bell Springs (3912385), Big Bend (4112118), Butte Meadows (4012115), Chalk Mtn. (4012187), Cohasset (3912186), Devils Parade Ground (4012116), Devils Rock (4012271), Goose Gap (4012281), Hatchet Mtn. Pass (4012177), Hiouchi (4112471), Ishi Caves (4012117), Jonesville (4012114), Kimshew Point (3912184), Montgomery Creek (4012178), Onion Butte (4012125), Paradise East (3912175), Paradise West (3912176), Roaring Creek (4012188), Shoeinhorse Mtn. (4112211), Stirling City (3912185)

#### Notes

Definitions of codes preceding a county and/or quad:

- \* Presumed extirpated
- (\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

#### Notes

Possibly threatened by logging and road maintenance. Can be variable. Plants from DNT Co. intermediate to ssp. *atriplicifolia*, and plants from MEN Co. (600A) need confirmation. See *Kew Bulletin* 35(2):327 (1980) for original description.
