Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Known from fewer than ten native occurrences. Rare at all occurrences, and seriously threatened by grazing; reduced to one plant on ANA Isl. One occurrence introduced on SMI Isl. (SMIE); cultivated plants grow on SNI Isl. but native occurrence extirpated. May not be native to SRO Isl.; plants on mainland, SCZ Isl., and Todos Santos Isl. (BA) most likely planted. Recovery efforts ongoing on ANA Isl. See *L. assurgentiflora* in *The Jepson Manual*. See *The California Islands: Proceedings of a Multidisciplinary Symposium*, pp. 175-178 (1980) for species account.
